GROUP B.V.),

Plaintiff,

-against-

GEONET ETHANOL, LLC,

Defendant.

08 CIV. 4382 (SAS)(JCF)

ECF CASE

DECLARATION OF J. BRENT BAKER

J. Brent Baker, pursuant to the provisions of 28 U.S.C. § 1746 declares and states as follows:

1. I am the Chief Executive Officer of Geonet Ethanol, LLC ("Geonet"), the defendant in this action. I make this declaration in support of Geonet's motion to vacate the attachment ordered by this Court on May 14, 2008, or, in the alternative, directing limited discovery on the extent to which Plaintiff Stolt Tankers B.V. ("Stolt B.V.") may be found in the Southern District of Texas. The statements made in this declaration are based upon my personal knowledge and company records except as otherwise described.
2. Geonet is a U.S. Virgin Islands Limited Liability Company ("LLC") registered as a foreign LLC to do business in Texas since June 19, 2007. (Attached as Exhibit 1 is a copy of the certificate of the fact of such registration from the Secretary of State of the State of Texas, together with a certified copy of Geonet's application for registration.) Since that time, it has maintained a designated agent for the service of process in Texas. Additionally, Geonet's CEO, me, and its Corporate Secretary both maintain

offices with an affiliated company, Geonet Utilities, Inc., located at 1001 McKinney, Suite 1650, Houston, Texas. Geonet regularly engages in large dollar transactions, in the millions of dollars, with customers based in Houston.

3. Part of Geonet's business involves purchasing hydrous ethanol from Brazil, shipping it to Geonet's dehydration facility in St. Croix and then shipping processed anhydrous ethanol to the eastern United States. In late 2006 and early 2007, Geonet was seeking proposals from shipping companies to transport hydrous and anhydrous ethanol. One such proposal sought was for the transportation of processed anhydrous ethanol from St. Croix to ports on the east coast of the United States. Stolt-Nielsen Transportation Group, Inc. ("Stolt Inc.") negotiated the Contract of Affreightment ("COA") with Geonet for that business which COA, entered into between the parties on or about June 1, 2007, is the subject of this case. (A true copy of the COA is annexed hereto as Exhibit 2.)

4. The COA was negotiated in part through a broker, Sound Tanker Chartering, but also directly between Geonet and Stolt, Inc. Phil Dalton, an officer of Geonet who is no longer with the company, in addition to meeting with Mark Ellenberger of Sound Tanker and participating in many telephone calls with Mr. Ellenberger and Stolt, Inc. personnel, met in person multiple times with Stolt, Inc. personnel. Many of those meetings took place in Houston, Texas. I know this because I met and spoke daily with Mr. Dalton and received reports from him of the discussions. Dale Hudson of Geonet also participated in meetings with Stolt, Inc. personnel. These meetings took place not only up to the time of the execution of the COA at the end of May, 2007, but through October, 2007, when the difficulties that resulted in Geonet declaring force majeure occurred. The

meetings first dealt with the negotiation of the COA, then, once it had been executed, with operational issues. In October, the meetings dealt with the problems that resulted in the declaration of force majeure.

5. I personally met with officers of Stolt, Inc. on at least three occasions. One meeting was in New York City and two were in Houston, Texas. The Stolt, Inc. officers with whom I personally met at various times, according to the business cards that they gave to me, are:

Andrew Adams
General Manager
Stolt-Nielsen Transportation Group, Inc.
15638 Jacintoport Blvd.
Houston, TX 77015-5534

Kevin J. Chimento
Marketing Manager
Stolt-Nielsen Transportation Group, Inc.
2444 English Turn Road
Braithwaite, LA 70040

Raymond R. Long
Business Director
Atlantic Ocean Service, SVP
Stolt-Nielsen Transportation Group, Inc.
800 Connecticut Avenue, 4th Floor East
Norwalk, CT 06854

James S. Fleming
Marketing Manager
Latin American Service, Tankers Division
Stolt-Nielsen Transportation Group, Inc.
800 Connecticut Avenue
Norwalk, CT 06854

Of the officers from Connecticut, one traveled to Houston for one of the meetings that I attended and the other attended the meeting in New York City.

6. The COA, upon which Stolt B.V. bases its complaint, states on the signature page (p. 27) that Stolt-Nielsen Transportation Group, Inc. (hereinafter "Stolt, Inc.") signed as agents for Stolt B.V. In fact, the COA was entirely negotiated on Stolt B.V.'s behalf by officers and personnel of Stolt, Inc. in the series of meetings in Houston and in New York City described above. In fact, its General Manager, Andrew Adams, resident in its Houston office, actually signed the COA. As I described, the officers of both Geonet and Stolt, Inc. have known at least since the spring of 2007 where each were located in Houston and dealt with each other extensively in connection with the COA.

7. I have positions with companies related to Geonet Ethanol, LLC, including Geonet Utilities, as I noted above. The same is true of Terrell Wilson, the Corporate Secretary of Geonet Ethanol. We work in different capacities for different companies from our offices at Geonet Utilities in Houston. Geonet Ethanol and Geonet Utilities are sister companies, with common owners. As officers of Geonet Ethanol, Ms. Wilson and I are both authorized to receive service of process upon Geonet Ethanol. For the duration of the existence of Geonet Ethanol, going back before the negotiation of the COA began and to the present, I and a second officer of Geonet Ethanol have maintained offices with an affiliated company in Houston.

8. As CEO of Geonet Ethanol, I am familiar with its operations, including its sales to companies in the United States. We have major customers in Houston, Texas, among other places. Three of them, Shell Oil, Conoco Philips and Petrobras, have corporate offices and facilities with which we do business. They, alone, accounted for more than 50 million dollars of sales in 2007 and more than 80 million dollars in sales so far in 2008. We also do business with other major companies that have offices in Houston, although we deal with other of their offices directly. Some of those are in other Texas cities, such as San Antonio.

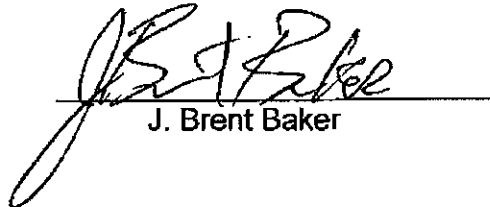

9. Geonet has been registered with the New York Secretary of State as a foreign limited liability company doing business in the state since December 11, 2006 and is still so licensed. (Attached as Exhibit 3 is a copy of the certificate of the fact of such registration from the Department of State of the State of New York, together with a certified copy of Geonet's application for registration.) As I understand we are legally required to do, the Secretary of State is designated as agent for the service of process.

Further, Geonet has had a designated agent for service of process within the state, Capitol Services, during this time.

Dated: New York, New York

I declare under penalty of perjury that the foregoing is true and correct.

Contract of Affreightment

It is this day, June 1, 2007, mutually agreed between Stolt-Nielsen Transportation Group B.V. (hereinafter called the "Owner") and GeoNet Ethanol LLC (hereinafter called the "Charterer") to enter into the following Contract of Affreightment ("COA"). In this COA, Owner and Charterer may each be referred to as a "Party" and collectively they may be referred to as the "Parties."

**Asbatankvoy
Part 1**

1. TONNAGE

Stolt-Nielsen Transportation Group BV owned or chartered or procured tonnage ("Contract Vessel") as per an agreed vessel schedule. Each vessel transporting cargo under this COA must be approved by Charterer.

2. PERIOD

One (1) year to commence upon confirmation of the first lifting ("Effective Date") Such first lifting to take place between June 15, 2007 and July 15, 2007, and confirmation of the first lifting is to be given by Charterer by May 31, 2007 as per nomination clause below .

3. CARGO

A minimum of 11,000 metric tons (mt) and a maximum of up to full vessel capacity of, in Charterer's option, one or more grades ethanol, which shall be segregated according to grade. Always within the vessel's natural segregation.

4. FREQUENCY

Charterer to provide a minimum 11,000 mt of cargo twice per month. Owner to provide two (2) sailings of minimum 11,000 mt capacity per month, evenly spread. The liftings shall be spaced with a minimum of 13 days and a maximum of 20 days separation between sailings. If Owner wishes to substitute tonnage, Owner will coordinate the vessel substitution to meet the scheduled delivery of cargo to Charterer's customers.

GeoNet - Stolt Nielsen Subject Agreement

5. NOMINATION

- a. Charterer will designate a thirty (30) day load window for the first lifting by May 31, 2007 whereby Owner will nominate performing tonnage.
- b. Twenty (20) days prior to the load window designated in clause 5(a) above, Charterer will further narrow the load window for the first lifting to 15 days, at which time Owner will nominate a 10 day laycan within Charterer's load window.
- c. Fifteen (15) days prior to the laycan designated in clause 5(b) above, Owner will further narrow laycan to 5 days.
- d. Owner will subsequently nominate 2 sailings per month with a minimum capacity of 11,000 mt per sailing adhering to Clauses 4, 5(b) and 5(c) with regard to nomination timing.
- e. Owner and Charterer agree to work together in good faith to accommodate eventual port delays and/or production or supply issues.
- f. Charterer's customers, or a government having jurisdiction over the shipping of ethanol, may require double hull tonnage. In such event, Charterer will advise Owner a minimum of 15 days ahead of such anticipated sailing and Owner will either nominate acceptable double hull tonnage or Charterer will be free to enter the market to secure suitable double hull tonnage.
- g. If Charterer must secure tonnage outside this Contract of Affreightment, per clause 5(f) above, Charterer and Owner will work in good faith to maintain the 2 sailings per month schedule. Additionally, if Charterer must secure tonnage outside this Contract of Affreightment, then the volume lifted by the outside tonnage will be deducted from the volume to be carried pursuant to this Contract of Affreightment.
- h. If Owner is not able to adhere to the sailing schedule of 2 sailings per month in any given month because of weather, equipment problems or other reason excused by Charterer, with a minimum of 13 days and a maximum of 20 days separation between sailings, Charterer is relieved of its obligation to provide 11,000 mt of cargo for that missed shipment and Charterer is free to enter the market for any single lifting affected by Owner's inability to adhere to the sailing schedule without recourse or cost to either party, with respect to 11,000 mt of shipment not provided by Owner. Owner and Charterer will work in good faith to reestablish the sailing schedule of 2 sailings per month, starting as soon as possible but no later than the next calendar month after Owner failed to provide a sailing.

Affreightment, or any part of it, may expose, or is likely to expose, the Vessel, her cargo, crew or other persons on board the Vessel to War Risks, the Owner(s) may give notice to the Charterer, in writing, suspending performance of the Parties hereunder for a specific shipping or for a period of up to six (6) months or until the War Risks is eliminated, or if the period of time exceeds six (6) months Owner(s) may cancel this Contract of Affreightment, or may refuse to perform such part of it as may expose, or may be likely to expose, the Vessel, her cargo, crew or other persons on board the Vessel to War Risks; provided always that if this Contract of Affreightment provides that loading or discharging is to take place within a range of ports, and at the port or ports nominated by the Charterer the Vessel, her cargo, crew, or other persons onboard the Vessel may be exposed, or may be likely to be exposed, to War Risks, the Owners shall first require the Charterer to nominate any other safe port which lies within the range for loading or discharging, and may only cancel this Contract of Affreightment if the Charterer shall not have nominated such safe port or ports within 48 hours of receipt of notice of such requirement.

- C. The Owner(s) shall not be required to continue to load cargo for any voyage, or to sign Bills of Lading for any port or place, or to proceed or continue on any voyage, or on any part thereof, or to proceed through any canal or waterway, or to proceed to or remain at any port or place whatsoever, where it appears, either after the loading of the cargo commences, or at any stage of the voyage thereafter before the discharge of the cargo is completed, that, in the reasonable judgment of the Master and/or the Owners, the Vessel, her cargo (or any part thereof), crew or other persons on board the Vessel (or any one or more of them) may be, or are likely to be, exposed to War Risks. If it should so appear, the Owners may request the Charterer, in writing, to nominate a safe port for the discharge of the cargo or any part thereof, and if within 48 hours of the receipt of such notice, the Charterer shall not have nominated such a port, the Owner(s) may discharge the cargo at any safe port of their choice (including the port of loading) in complete fulfillment of the Contract of Affreightment. The Owners shall be entitled to recover from the Charterer the extra expenses of such discharge and, if the discharge takes place at any port other than the loading port, to receive the full freight as though the cargo had been carried to the discharging port and if the extra distance exceeds 250 miles, to additional freight which shall be the same percentage of the freight contracted for as the percentage which the extra distance represents to the distance of the normal and customary route, the Owners having a lien on the cargo for such expenses and freight.
- D. If at any stage of the voyage after the loading of the cargo commences, it appears that, in the reasonable judgment of the Master and/or the Owner(s), the Vessel, her cargo, crew or other persons on board the Vessel may be, or are likely to be, exposed to War Risks on any part of the route (including any canal or waterway) which is normally and customarily used in a voyage of the nature contracted for, and there is another longer route to the discharging port, the Owner(s) shall give fourteen (14) days notice to the Charterer that this route will be taken. In this event the Owner(s) shall be entitled, if the total extra distance exceeds 250 miles, to additional freight which shall be the same

GeoNet - Stolt Nielsen Subject Agreement

percentage of the freight contracted for as the percentage which the extra distance represents to the distance of the normal and customary route.

- E.
1. The Owner(s) may effect war risks insurance in respect of the Hull and Machinery of the Vessel and their other interests (including, but not limited to, loss of earnings and detention, the crew and their Protection and Indemnity Risks), and the premiums and/or calls therefor shall be for the Owner's account.
 2. If the Underwriters of such insurance should require payment of premiums and/or calls because, pursuant to the Charterer's orders, or in order to fulfill the Owner's obligation under this Charter Party, the Vessel is within, or is due to enter and remain within, or pass through any area or areas which are specified by such Underwriters as being subject to additional premiums because of War Risks, then the actual premiums and/or calls paid shall be reimbursed by the Charterer to the Owner(s) within 14 days after receipt of the Owner's invoice. If the Vessel discharges all of her cargo within an area subject to additional premiums as herein set forth, the Charterer shall reimburse the Owner(s) for the actual additional premiums paid which may accrue from completion of discharge until the Vessel leaves such area or areas referred to above. The Owners shall leave the area as soon as possible after completion of discharge.
 3. Owner shall notify Charterer in writing fourteen (14) days prior to obtaining any such war risks insurance that might be billed to Charterer and shall discuss the need for such insurance.

F. The Vessel shall have liberty:

1. to comply with all orders, directions, recommendations or advice as to departure, arrival, routes, sailing in convoy, ports of call, stoppages, destinations, discharge of cargo, delivery or in any way whatsoever which are given by the Government of the Nation under whose flag the Vessel sails, or other Government to whose laws the Owners are subject, or any other Government which so requires, or any body or group acting with the power to compel compliance with their orders or directions;
2. to comply with the orders, directions or recommendations of any war risks underwriters who have the authority to give the same under the terms of the war risks insurance;
3. to comply with the terms of any resolution of the Security Council of the United Nations, the effective orders of any other Supranational body which has the right to issue and give the same, and with national laws aimed at enforcing the same to which the Owners are subject, and to obey the orders and directions of those who are charged with their enforcement;

GeoNet - Stolt Nielsen Subject Agreement

5. to call at any other port to change the crew or any part thereof or other persons on board the Vessel when there is reason to believe that they may be subject to internment, imprisonment or other sanctions; and

- C. The Owner warrants that the crew members involved with cargo handling and navigation are sufficiently proficient in English to adequately communicate with shore personnel and authorities.

2. COMPLIANCE

- A. The Owner warrants that during the term of this Charter Party, the performing vessel is fully classified for the carriage of Charterer's cargo(es) and complies with all local, national and international laws, rules and regulations relevant to the said cargo(es) and trade routes set forth in this Charter Party and carries all certificates, records, compliance letters, contingency plans and other documents required for the services performed by Owner under this Charter Party. This includes, but is not limited to, IMO, MARPOL, USCG and the ISM Code, OPA 90/CFR and USCG Vapor Recovery.
- B. All vessel(s) are subject to acceptance by Charterer which may include an onboard Vessel Inspection by a Charterer's Representative. The Charterer will accept or reject any vessel. The Charterer will be under no liability for rejecting a vessel (COA or vessel substitution).

GeoNet - Stolt Nielsen Subject Agreement

CDI report and the most recent Sire report upon request by Charterer for each vessel nominated by Owner.

- D. The Owner warrants that both the vessel and "the Company" (as defined by the ISM Code) shall comply with the requirements of the ISM Code and carry valid certificates to this effect. Upon request, the Owner shall provide copies of the relevant Document of Compliance (DOC) and Safety Management Certificate (SMC) to the Charterer. Any loss, claim or action resulting from Owner/Vessel's noncompliance shall be Owner's responsibility, and any resulting delay not to count as used laytime or demurrage.
- G. Owner(s) warrants that throughout the duration of this COA they will make utmost efforts to maintain vessels in condition necessary to be found acceptable to oil or chemical major fleet vetting procedures. These shall include, ExxonMobil, Shell, and Chevron. This shall explicitly exclude BP or any other company currently requiring double hull vessels for all shipments.
- H. Owner warrants that the vessel, when last nominated and presented for vetting, was accepted by Shell. Owner further warrants that, to the best of Owner's knowledge, nothing material has changed with respect to the vessel's condition which would prevent acceptance of the vessel by Shell vetting. In case the nominated vessel is rejected by Shell vetting, Owner will nominate alternative tonnage for the performance of the nominated voyage. If Owner's replacement tonnage is also rejected by Shell vetting, Charterer is free to charter outside tonnage for the performance of all pending and subsequent voyages until Owner nominates Shell approved tonnage.

These requirements shall be presumed to be reasonable and shall include details of hydrocarbons, chlorides, permanganate time, non-volatile matter specifications, color, and any other requirement. Failure to provide said

GeoNet - Stolt Nielsen Subject Agreement

requirements will result in a presumption that the cargo tank is subject only to visual inspection and that no wall wash or foot sample analysis will be accomplished. Any additional time and/or expenses incurred as a result of Charterer's failure to comply with its obligations under this clause shall be for Charterer's account.

- C. If one or more of the Vessel's tanks fail the initial inspection as determined by Charterer's inspector and additional cleaning is necessary, Owner shall undertake such cleaning at its time and expense. Time and expense then required for Charterer's second inspection shall be for Owner's account providing that Charterer's inspector conducts said inspection within 4 hours after receipt of vessel notice afterwhich laytime or time on demurrage shall resume. Should Charterer's inspector not be satisfied with the cleanliness then obtained, Charterer shall have the option, on written notice to Owner, of canceling the Voyage without liability of either Party, one to the other, but, if this option is not exercised, then all time and expense attributable to additional cleaning and re-inspection(s) are for Owner's account.
- D. Last three (3) cargoes in all tanks used under this Charter Party to consist of clean, unleaded materials which are not darker than 2.5, according to National Petroleum Standards (ASTM D-155) and subject to acceptance by Charterer and any of its customers that have special requirements, such as Shell Trading U.S. Company, which shall not be unreasonably withheld.

- B. Any time lost at load and/or discharge port(s), whenever/howsoever lost, which is directly/indirectly attributed to weather conditions and/or 'sea state', shall count as half laytime or if the vessel is on demurrage, at one half demurrage rate.
- C. If after the disconnection of hoses, the vessel remains at the berth exclusively for the vessel's purposes, the Owner will be responsible for all direct or indirect costs charged to Charterer(s) by the terminal, the supplier(s) or the receiver(s). Alternatively vessel shall vacate the berth immediately upon the terminals request.
- D. Charterer may load or discharge at one or more nominated berth(s) and/or place(s) per port. The net documented shifting costs, including but not limited to tugs, pilots, agency fees, linesmen, whafage, dockage, quay dues and all fuel consumed during the applicable time within the port are for Charterer's account unless the Vessel is scheduled to call at or calls at berth(s) or place(s) for Vessel purposes or for other(s)

GeoNet - Stolt Nielsen Subject Agreement

in which case the Vessel shift shall be at no cost to Charterer. Laytime or time on demurrage to run continuously until hoses off at final discharge berth.

(ASBATANKVOY Part II Clause 11)
- B. Owner warrants that vessel will discharge a full cargo within 24 hours (or pro rata for part cargo) or will maintain a minimum discharge pressure of 100 psi at the vessel's manifold throughout discharge, provided receiving facilities are capable of accepting cargo within such time or at such pressure. Receiving terminal shall have the right to gauge discharge pressure at the vessel's manifold.
- C. Any time consumed due to inability of vessel to discharge cargo within 24 hours or to maintain a minimum discharge pressure of 100 psi at the vessel's manifold throughout

GeoNet - Stolt Nielsen Subject Agreement

discharge will be for Owner's account and shall not count as used laytime (nor be compensated for at the demurrage rate if allowed laytime has expired).

- D. In the event that demurrage is to be claimed by reason of alleged inability of receiving facilities to accept cargo within the warranted time or at warranted discharge pressure, vessel must present terminal and Charterer with a Note of Protest prior to departing berth and Owner will include a copy of the vessel's pumping record, Note of Protest and other supporting documentation with such claim. Failure to comply with this documentation requirement shall result in the claim being barred.

10. FORCE MAJEURE

In addition to ASBATANKVOY the following to apply:

- B. Load Port (Force Majeure): In cases where the Charterer declares a Force Majeure, Charterer and Owner may agree to reduce the nominated volume. However, Owner will have the option to cancel the lifting or offer another vessel to carry the agreed upon volume without penalty or cost to Charterer.
- C. In cases where the Owner declares a Force Majeure, Charterer is free to secure outside tonnage in the market.
- D. Due to the specific nature of this trade, if the United States Government removes the present tariffs for the importation of ethanol to the United States or if the Caribbean Basin Initiative exclusion from this tariff is rescinded, or if Brazil imposes export controls or duties on hydrous ethanol or other raw materials used by Charterer in making its products, then the Charterer has the option to suspend performance under this Contract of Affreightment for up to six (6) months or to

GeoNet - Stolt Nielsen Subject Agreement

cancel this Charter Party without penalty or cost. In addition, Charterer can declare Force Majeure and exercise an option to suspend performance for up to six (6) months and then cancel this Charter Party or it can at the time it declares Force Majeure cancel this Charter Party without penalty or cost if the import duty exemption available under the Caribbean Basin Initiative becomes temporarily unavailable because the import quota set by such law has been met, or if the law is modified or a new law passed, to thereby create and/or impose an import duty or like tax with respect to foreign sourced ethanol dehydrated in St. Croix, Virgin Islands. In the event that Charterer declares Force Majeure and exercises its option to suspend performance under this Contract of Affreightment for up to six (6) months and subsequently lifts the suspension of performance within the six (6) months, then two (2) months shall be added to the period of the charter as defined by ASBATANKVOY Part I, Clause 2.

- E. The ability of Charterer to manufacture fuel ethanol is dependent upon the ethanol dehydration plant which it is constructing becoming operational and on continued availability of necessary raw materials and products from its usual and anticipated suppliers and continued availability of energy supplies to its manufacturing facility in St. Croix, Virgin Islands. Prior to the ethanol dehydration plant becoming operational, Charterer may declare Force Majeure and suspend performance under this Charter Party until such time as the plant is operational. If the availability of sufficient quantities of such raw materials, products and/or energy supplies from those suppliers is restricted during the term of this Charter Party below that necessary to produce fuel ethanol in the amounts nominated in this Charter Party, then Charterer may declare Force Majeure and exercise an option to suspend its performance under this Charter Party for up to ninety (90) consecutive days or cancel this Charter Party without penalty or cost.
- F. The Party declaring Force Majeure must provide immediate written notice of the declaration of Force Majeure to the other Party.

- C. Any taxes levies or dues on cargo or freight to be for Charterer's account.
- D. In the event of any Brazilian taxes, dues or fees (including but not limited to, port utilization tax, Merchant Marine Renewal Tax and Consular fees), being assessed on the cargo, the vessel or her agents by reason of the carriage of this cargo, such charges shall be for Charterer's account and shall be paid by the Charterer or their agents without cost or risk to the Owner.

GeoNet - Stolt Nielsen Subject Agreement

- ii. any damage to its cargo and / or
- iii. any damage to the loading / discharging facility and / or

Such discharge shall be deemed to be due fulfillment of the contract or contracts of affreightment and the Owners shall be entitled to freight as if discharge has been effected at the port or ports originally designated or to which the vessel may have been ordered pursuant to the terms of the Bills of Lading. All extra expenses involved in reaching and discharging the cargo at any such other port of discharge shall be paid by the Charterers and/or Cargo Owners and the Owner shall have a lien on the cargo for freight and all such expenses.

(vii) **DEVIATION CLAUSE.** The Vessel shall have liberty to call at any ports in any order, to sail with or without pilots, to tow or to be towed, to go to the assistance of vessels in distress, to deviate for the purpose of saving life or property or of landing any ill or injured person on board, and to call for fuel or stores at any port or ports in or out of the regular course of the voyage. Any salvage shall be for the sole benefit of the Owner.

21. **LIEN.** The Owner shall have an absolute lien on the cargo for all freight, dead freight, demurrage and costs, including attorney's fees, of recovering the same, which lien shall continue after delivery of the cargo into the possession of the Charterer, or of the holders of any bills of lading covering the same, or of any storageman.

22. **AGENTS.** The Owner shall appoint Vessel's agents at all ports.

23. **BREACH.** Damages for breach of this Charter shall include all provable damages, and all costs of suit and attorney fees incurred in any action hereunder.

24. **ARBITRATION.** Any and all differences and disputes of whatsoever nature arising out of this Charter shall be put to arbitration in the City of New York or in the city of London whichever place is specified in Part I of this charter pursuant to the laws relating to arbitration there in force, before a board of three persons, consisting of one arbitrator to be appointed by the Owner, one by the Charterer, and one by the two so chosen. The decision of any two of the three on any point or points shall be final. Either party hereto may call for such arbitration by service

upon any officer of the other, wherever may be found, of a written notice specifying the name and address of the arbitrator chosen by the first moving party and brief description of the disputes or differences which such party desires to put to arbitration. If the other party shall not, by notice served upon an officer of the first moving party within twenty days of the service of such first notice, appoint its arbitrator to arbitrate the dispute or differences specified, then the first moving party shall have the right without further notice to appoint a second arbitrator, who shall be a disinterested person with precisely the same force and effect as if said second arbitrator has been appointed by the other party. In the event that the two arbitrators fail to appoint a third arbitrator within twenty days of the appointment of the second arbitrator, either arbitrator may apply to a Judge of any court maritime jurisdiction in the city above mentioned for the appointment of a third arbitrator, and the appointment of such arbitrator by such Judge on such application shall have precise the same force and effect as if such arbitrator had been appointed by the two arbitrators. Until each time as the arbitrators finally close the hearings either party shall have the right by written notice served on the arbitrators and on an officer of the other party to specify further disputes or differences under this charter for hearing and determination. Awards made in pursuance to this clause may include costs, including a reasonable allowance for attorney's fees, and judgment may be entered upon any award made hereunder in any Court having jurisdiction in the premises.

25. SUBLET. Charterer shall have the right to sublet the Vessel. However, Charterer shall always remain responsible for the fulfillment of this Charter in all its terms and conditions.

26. OIL POLLUTION CLAUSE. Owner agrees to participate in Charterer's program covering oil pollution avoidance. Such program prohibits discharge overboard of all oily water, oily ballast or oil in any form of a persistent nature, except under extreme circumstances whereby the safety of the vessel, cargo or life at sea would be imperiled.

Upon notice being given to the Owner that Oil pollution Avoidance controls are required, the Owner will instruct the Master to retain on board the vessel all oily residues from consolidated tank washings, dirty ballast, etc., in one compartment, after separation of all possible water has taken place. All water separated to be discharged overboard.

If the Charterer requires that demulsifiers shall be used for the separation of oil/water, such demulsifiers shall be obtained by the Owner and paid for by Charterer.

The oil residues will be pumped ashore at the loading or discharging terminal, either as segregated oil, dirty ballast or co-mingled with cargo as it is possible for Charterers to arrange. If it is necessary to retain the residue on board co-mingled with or segregated from the cargo to be loaded, Charterers shall pay for any deadfreight so incurred.

Should it be determined that the residue is to be co-mingled or segregated on board, the Master shall arrange that the quantity of tank washings be measured in conjunction with cargo suppliers and a note of the quantity measured made in the vessel's ullage record.

The Charterer agrees to pay freight as per the terms of the Charter Party on any consolidated tank washings, dirty ballast, etc. retained on board under Charterer's instructions during the loaded portion of the voyage up to a maximum of 1% of the total deadweight of the vessel that could be legally carried for such voyage. Any extra expenses incurred by the vessel at loading or discharging port in pumping ashore oil residues shall be for Charterer's account, and extra time, if any, consumed for this operation shall count as used laytime.
